

JFuture is a Sunday educational platform which uses new technology and teaching methods, and where children and parents receive new knowledge, advice from professional specialists and spend their time usefully in a warm family atmosphere.

JFUTURE IS CREATED BY WHAT YOU DO TODAY!

Project uniqueness

Innovative technology

Acquaintance of the family with the Jewish community

Development children's and parents' creativity

Become a part of the global Jewish community

Turn classes into an exciting interactive game

Goals and objectives of the project

Jewish education

To get families acquainted with the life of the Jewish community, motivate them to study Jewish tradition and history.

Development platform

To inculcate and strengthen interest in learning, develop cognitive skills, intelligence, children's and parents' creativity.

Jewish future

To organize a platform for the development of leadership skills, create a field for responsibility.

Principles of the project

Jewish heritage:

Study of the history and traditions of the Jewish people.

Novelty in studying:

The system of unique, creative and intellectual development, which helps children reveal their potential. Learning is based on the STEAM approach.

Global Jewish Network:

The sense of unity of the Jewish people, regardless of their residence.

Warm family atmosphere:

The platform, where you can discuss topics of interest, learn, develop and feel yourself at home.
